MEMORANDUM FOR: Director of Central Intelligence
VIA: Deputy Director of Central Intelligence
FROM: 25X1
Member, Senior Review Panel
SUBJECT: Unclassified Version of Study on
International Terrorism in 1981

1. As requested by you in our telephone conversation on 6 May, I have reviewed the draft sent you by Helene Boatner on 29 April, in order to ensure conformity with the SNIE on Soviet Support for International Terrorism which is going before the NFIB on 14 May.

2. The relevant section is on page 9 of the attached page proof. I recommend that the first 11 lines of the material in the right-hand column on that page be replaced with the attached text, the language of which is drawn from the Summary Conclusions of the Draft SNIE. I have already indicated the recommended change in the proof, where a copy of the new text is stapled.

3. I would support Ms. Boatner's recommendations.

Soviet Union. The Soviets are deeply engaged in support of revolutionary violence, which is a fundamental element of Leninist ideology. Such violence frequently entails acts of international terrorism. The ostensible position of the Soviets that they oppose terrorism while supporting so-called "national liberation" movements is further compromised by Moscow's close relations with and aid to a number of governments and organizations which are direct supporters of purely terrorist groups. In the Middle East, for example, the Soviets
